

## A Message from **Our Founder**

As the mother of three grown children and a former teacher of special education, I know how stressful it can be when your child is experiencing problems at school. Whether your child is a weak reader, has difficulty with math, is getting poor grades, or has been labelled as dyslexic, learning disabled or ADHD, we can help.

When I co-founded Strategic Learning Centre in 1989, I envisioned a centre that would work with students to get to the root of their specific needs and challenges, and then develop solutions to help them become better, more confident learners. And that's exactly what we do – we plant the seeds for your child's success at school and in life.

I know that our centre is unique for these reasons:

- We offer brain training programs that get right to the root of the problem and **[can change the way students learn](#)**
- We don't use conventional tutoring methods – instead we offer a one-on-one **[teaching approach that builds a strong foundation, step by step](#)**
- We have an exceptional ability to **[accurately assess academic problems](#)**
- We offer **[specialized programs](#)** that are based on the most current research about how children learn, and that are not available anywhere else in Montreal
- Our staff are some of the most **[qualified, experienced and caring teachers](#)** in the field
- We **[work closely with parents](#)** to ensure they fully understand their child's academic needs and how to best support them to be successful

I know our clients feel this way too – you can **[click here to read what they have to say about our centre](#)**. You can also learn more about us and the programs we offer by taking a tour of this site, or by calling me at 514-631-9745.

I look forward to welcoming you to Strategic Learning Centre.

Sincerely,

Karen Foley, B.Ed, M.Ed  
Director, Strategic Learning Centre
