

## Our Teachers are the Best

At Strategic Learning Centre, we offer a team of highly qualified, experienced and caring teachers – some of the best educators in the field. Our team of professionals includes clinicians who are specially trained to implement our cognitive based learning programs. Our learning specialists have made it their life's work to teach and support children who have difficulties at school. And it shows in the way they work with our families and in the outstanding results we deliver.

Our learning specialists all share some common philosophies around how they work with our students including:

- Teaching on a one-to-one basis to ensure that each student is instructed in the right programs to meet their individual needs, and is supported to progress at their own pace
- Supporting each child to reach their potential through the use of specialized programs that are proven and based on the most current research about how children learn
- Communicating, on an ongoing basis, with parents and classroom teachers to ensure that everyone is working in partnership to support the child's learning needs
- Empowering students and supporting them to develop positive self-esteem, by teaching them the skills and concepts necessary for academic success
- Participating in ongoing professional development and training so they are continuously upgrading their knowledge in newly developed teaching techniques and programs
